We have reached a decision regarding your submission to Open Access Macedonian Journal of Medical Sciences, "An Acute Toxicity Study of Porang (*Amorphophallus oncophyllus*) Flour Macerated with *Strobilanthes crispus* in Wistar Rats", Manuscript ID = OJS6813.

Our decision is: Revise your manuscript until September 15, 2021 and submit on the OAMJMS website.

Sincerely,
Prof. Dr Mirko Spiroski,
Editor-in-Chief, OAMJMS

Recommendation: Revisions Required

Reviewer E:

The manuscript is well written and presented. Having read the manuscript, I have the following comments:

1. For the main study of NPF6, NPF7, SPF6, and SPF7 please provide the additional study results of body weight. Does it affect the body weight of the animals with those high doses?

2. On page 6 paragraph 1, the authors declared to exclude the congestion and hemorrhage, but in figure 2, authors include these parameters. Authors should be consistent in making a statement that represents the results.
3. Please add the scale bar in Figure 2.
4. If possible, please provide a picture/arrow of calcium oxalate formation in the kidney. It is very possible that the calcium oxalate will be accumulated due to a significantly increased level of calcium oxalate in the body.

Recommendation: Revisions Required
